* Based on 9,500 gallon load sizes

2027 BID EXTENSION INCLUDES A FUEL SURCHARGE.

The extension of existing pricing includes the addition of a fuel surcharge of $0.0125 per gallon (1.25 cents) when their diesel cost exceeds $5.00 per gallon. The surcharge would only apply when their diesel cost exceeds the $5.00 per gallon threshold. Their fuel contractor provides them with daily pricing, making the surcharge easy to track, verify, and align with SCRC's daily delivered price per gallon.
